

POLYTUNNELS

Greenside Up is now able to provide a variety of competitively priced polytunnels for small hobby gardeners through to commercial growers. For further information, or to place an order, please contact greensideup@eircom.net

All tunnels are extendable and frames and plastic can be supplied separately. Prices for all of the following tunnels include VAT but exclude delivery (details on request). It's recommended that tunnel hoops are concreted into position on larger models or in exposed sites.

Small Tunnels - 4.5m (15') & 5m (18') wide

If you have the space the small polythene tunnels are a great alternative to glass houses and can be erected by anybody with DIY skills, although an erection service is available. All small tunnels are delivered with hoops and bars made from 32mm galvanised round steel and 6 season plastic. Doors are an optional extra (some customers prefer to make their own).
